

## PROJECT FACT SHEET (20 FEB 04)

**PROJECT:** Leeper Park Island Emergency Streambank Protection

**DESCRIPTION:** Leeper Park Island is located in the St. Joseph River in the City of South Bend, Indiana. Two public water supply wells which provide drinking water for City residents are located on the island. A stone wall surrounds the island to protect for the wells and the island itself. However, erosion along the eastern shore of the island has undermined portions of the wall, resulting in the destruction of approximately 250 feet of original wall. Loss of the wall has resulted in severe erosion farther upland and is threatening the public water supply wells. The subject project is intended to rebuild these failed portions of wall and to prevent future undermining of other areas along the eastern shoreline of the island.

**CONGRESSIONAL INTEREST:** Chocoma (IN-2); IN Senators Bayh (D) and Lugar (R)

### LOCATION MAP & PICTURE:

**NON-FEDERAL PROJECT SPONSOR:** City of South Bend, IN (POC: Carl Littrell, 574-235-9251)

**PROJECT AUTHORITY:** Section 14 of the Flood Control Act of 1946, as amended.

### FUNDING:

	<u>Total</u>	<u>Federal</u>	<u>Non-Federal</u>
Current Working Estimate	\$ 527,000	\$ 357,000	\$ 170,000
Funds Expended prior to FY04	\$ 188,000	\$ 188,000	\$ 0
Funds allocated in FY04	\$ 265,000	\$ 115,000	\$ 150,000
FY05 Budget	\$ 0	\$ 0	\$ 0
Funds that could be used in FY05	\$ 74,000	\$ 54,000	\$ 20,000
Funds required to complete (> FY05)	\$ 0	\$ 0	\$ 0

**STAGE:** Construction

**STATUS:** Construction anticipated to be completed in July 2004. FY05 funding would be used to complete construction contract closeout activities.
